Cut Out Junk Mail

Your guide to reducing unwanted mail

For junk mail with your address ...

Register with the **Mailing Preference Service (MPS)**.

Send MPS your name and address and you will gradually receive less addressed junk mail. It takes up to four months to start completely and lasts five years.

You will still receive mail from companies that you have done business with in the past e.g. catalogue companies. Please contact them direct to remove your name from their lists.

All members of a household with the same surname are covered.
