select: History/Ancestor Inquiry

message: Hello

I wonder whether you could help in my research please? I am studying a series of letters sent between 1916 and 1918 by Petrina Mary Marrow, a nurse/masseuse, to her fellow nurse Violet Thomasina Fraser, who worked at the Battery Hospital, Dunbar. Petrina Marrow died unmarried in 1971, aged 88, at St Theresa's Hospital, Corston, Somerset. Her address was Jasmine Cottage, Long Sutton. My question is: do any longstanding local residents have any memories of Miss Marrow, no matter how trivial they may seem? Miss Marrow worked as a physiotherapist, though I am not sure if she did this work while living at Long Sutton, or whether she moved there when she retired. If any local memories are jogged I would be very grateful to hear from you.

Regards

Philip Walker
